## 2. Paragraph 66

The first three sentences *should read*:

In 2004 and 2005, the Procurement Service issued a total of 117 tenders with the evaluation based on the best value for money methodology and as a result awarded contracts in a total amount of approximately $738 million. Out of 117 tenders, successful contractors for 103 cases also had the lowest technically compliant offers, thus making no financial differences between the award on the basis of best value for money and the lowest technically compliant offer. For 14 cases, the Organization awarded contracts on the basis of best value for money and the value of award was higher than the lowest technically compliant offer by approximately $3.4 million, which represent a higher value business solution.
